

## SUMMARY

Experienced front-end developer with over 2 years and 6 months of dedicated expertise in crafting engaging and responsive web applications. Proficient in a wide range of front-end technologies, I specialize in harnessing the power of React, HTML, CSS, and JavaScript to create visually stunning, user-friendly, and high-performance web experiences.

## EXPERIENCE

### Animaker - Associate React JS Developer

Chennai, India

08/2022 - Current

- Worked on designing UI and translated it into production-ready code using HTML, CSS with React JS library.
- Worked on On-boarding features of the product with a User-Friendly interface.
- Worked on draftjs for building elements like image, button, video and button in the editor of the product.
- Worked on payment Gateway modules like fixed and metered plans of the product.
- Worked on agile methodology where we have daily scrum calls and sprint planning calls for every sprint.
- As a agile project management tool we use jira to plan the tickets for each sprint, Worked with team co-operation to build and improve the product which I consider as my strength.

### KHR Technologies - Associate React JS Developer

Coimbatore, India

04/2021 - 07/2022

- Developed and provided maintenance for websites, using React, HTML, Java Script and CSS.
- Achieved 100% client satisfaction and on-time completion.
- Troubleshoot, debugged and modified existing programs to improve performance.
- Experience with various IDE's such as VSC, Sublime and Notepad++.
- Participated in user requirements meetings in order to transform client needs into proposed application designs.
- Assist in continually improving our software development process and the development environment.
